

## Approved Taxon-Based Diversity Course List (Biology Track)

### Highlighted courses offered Fall 2022

**BIO 321L** (Aquatic Entomology)

**BIO 324 & BIO 124L** (Plant Kingdom and Lab)

**BIO 327 & BIO 127L** (General Phycology and Lab)

**BIO 337** (Natural History of the Protists)

**BIO 340L** (Biology of Birds)

**BIO 342L** (Field Ornithology)

**BIO 448L** (Invertebrate Biology)

**BIO 353F** (Field Entomology)

**BIO 453L** (Entomology)

**BIO 354L** (Ichthyology)

**BIO 455L** (Vertebrate Natural History)

**BIO 463L** (Plant Systematics)

**BIO 364** (Microbial Ecology)

**BIO 369F** (Field Herpetology)

**BIO 369L** (Herpetology)

**BIO 471G** (Natural History Museum Science)

**MNS 352** (Topic: Principles of Estuarine Ecology)<sup>1</sup>

**MNS 352** (Topic: Marine Invertebrates)<sup>1</sup>

**MNS 352D** (Marine Botany)

**MNS 354C** (Biology of Fishes)

**MNS 354E** (Aquatic Microbiology)

**MNS 354U** (Biology of Sharks, Skates, and Rays)

**MNS 357** (Marine Phytoplankton Diversity)

**GEO 479M** (Mammalogy)<sup>2</sup>

---

<sup>1</sup> MNS 352 topics are only approved for the 2010-12, 2012-14, and 2014-16 catalogs. Starting in the 2016-18 catalog and beyond, these courses will not count for the Taxon-Based Diversity requirement.

<sup>2</sup> GEO 479M is only approved for the 2010-12, 2012-14, and 2014-16 catalogs. Starting in the 2016-18 catalog and beyond, this course will not count for the Taxon-Based Diversity requirement.
